Mbsm.pro, Kulthorn, AE 3414Y, Compressor, Small, 1,570 BTU/Hr, 1/8HP, R134a,

208-230V, 60Hz, 1Ph, HBP, overload Plus Relay, AE3414Y

Description

Make sure this fits by entering your model number..
Kulthorn hermetically sealed reciprocating refrigeration compressors.Use for household and commercial refrigerators & water coolers.
small size, low weight, low noise output, enery saving compressor, direct replacement.
1,570 BTU/Hr, 1/8HP, R134a, 208-230V, 60Hz, 1Ph, HBP, overload Plus Relay.
RSIR Motor with current relay, the motors have a normal starting torque and are designed for completely self-equalizing capillary tube.
This is a Kulthorn replacement part.
Part Number AE 3414Y-2.
This is an O.E.M. part.
Kulthorn hermetically sealed reciprocating refrigeration compressors; Use for household and commercial refrigerators & water coolers.
Small size, low weight, low noise output, energy saving compressor, direct replacement.
1,570 BTU/Hr, 1/8HP, R134a, 208-230V, 60Hz, 1Ph, HBP, overload Plus Relay.
RSIR Motor with current relay, the motors have a normal starting torque and are designed for completely self-equalizing capillary tube.
This is a Kulthorn replacement part.
