## Tecumseh Compressor AE9437Y-SR

Discover the advantages of Tecumseh' 'Broad range of energy efficient and reliable reciprocating compressors for household refrigerators and freezers, air-conditioning and commercial refrigeration applications including foodservice to walk-in coolers.

These hermetic reciprocating compressor use pistons driven by a crankshaft to deliver refrigerant at high pressure from the low side to the high side of a refrigeration system.

In 1938, Tecumseh revolutionized the refrigeration industry with the first hermetically sealed reciprocating compressor. They have provided 75+ years of industry leadership in reciprocating compressors for air conditioning and refrigeration applications. Today, they continue to lead the way by designing energy efficiency, quiet operation, and reliability into every new compressor they produce.
