Product Details

AC refrigeration compressor for Toshiba is famous for its reliable quality and high performance when using in the conditioning system.

Toshiba was the first company to incorporate inverter technology into air conditioning systems in 1981, and since then it has always maintained a technological advantage over its competitors. The development of the new and exclusive DC hybrid inverter system has reaffirmed this ability to innovate and maintain technological leadership in a fast-growing market.

Air treatment, low sound levels, guaranteed energy savings and easy installation of the indoor units make the Toshiba air conditioners compressor the top choice for any home and office. Solutions that are studied and verified in every tiny element are recognized universally by air conditioning professionals for their total reliability. Toshiba leads in technology and in applying technology to your greatest advantage!
