Description

Refrigerating capacity at - 23,3C 193 W.

Piston and rotary hermetic LUNITE HERMETIQUE TECUMSEH EUROPE refrigeration compressors are perfectly known in the world thanks to the unique qualities: reliability, durability, noiselessness and profitability. The highest accuracy of production of parts excludes possibility of backlashes, wear and noise, provides insignificant friction and allows to reach great values of mechanical efficiency of the refrigeration compressor. More than 30 years they are the best decision for coolers of drinks, show-windows, refrigeration chambers, ice generators and for other refrigerating appliances
