SECOP FR7GH (103G6683) (R134A - 1/5HP - 220-240V 50/60Hz / 208-230V 60Hz - M/HBP - 6.88cm³ / 0.42in³ - 1320BTU/h +/20F - 2537BTU/h +45F)

The **SECOP FR7GH (103G6683)** is a hermetic reciprocating compressor designed for refrigeration applications, particularly those utilizing the refrigerant **R134a**. Here are the detailed specifications and features:

Specifications

• Model: FR7GH

Part Number: 103G6683Refrigerant: R134a

• Power Rating: Approximately 1/5 HP

• Voltage:

○ 220-240V at 50/60Hz○ 208-230V at 60Hz

• Displacement: 6.88 cm³ (0.42 in³)

• Cooling Capacity:

Approximately 1320 BTU/h at +20°FApproximately 2537 BTU/h at +45°F

- Operating Temperature Range: Suitable for medium to high back pressure (M/HBP) applications cooling.
- Oil Type: Polyolester oil (POE)

Applications

The FR7GH compressor is commonly used in various refrigeration systems, including:

- Commercial refrigeration units
- Air conditioning systems

Maintenance

Regular maintenance of the compressor is essential for optimal performance and longevity. This includes checking refrigerant levels, ensuring proper oil levels, and inspecting electrical connections.
