Description

Make sure this fits by entering your model number..

Kulthorn hermetically sealed reciprocating refrigeration compressors. Use for household and commercial refrigerators & water coolers.

small size, low weight, low noise output, energy saving compressor, direct replacement.

1,570 BTU/Hr, 1/8HP, R134a, 208-230V, 60Hz, 1Ph, HBP, overload Plus Relay.

RSIR Motor with current relay, the motors have a normal starting torque and are designed for completely self-equalizing capillary tube.

This is a Kulthorn replacement part.

Part Number AE 3414Y-2.

This is an O.E.M. part.
