How to read the codes of maneurop compressors This model of maneurop compressors ( MT&MTZ) is designed to work on a wide range of medium and high applications, especially the MT

model. It is specially designed to work on modern freons HFC

R407C- **R134a** -R404a-R507A

. It uses polyester oil PZ1 **6 0**. These compressors have the feature of protecting against liquid returning to the compressor as they have a wide pocket at the entrance to the intake line to evaporate the liquid before entering the piston cylinder. More than 16 models with different capacities starting from 1.84 to 16.57 cubic inches and working to feed 220v as well as 380v

- 1: 208-230 V / 1 ph / 60 Hz
