Product Description

HYE69Y63 is a refrigeration compressor made by HUAYI. It uses R134a refrigerant and has a voltage of 220-240V/50-60Hz

. The compressor has a cooling capacity of 190W and a displacement of 6.7

. It is a FC (full copper) compressor with RSIR (resistance start induction run) technology

. The compressor has a power input of 141W – 1/4 hp and an EER (energy efficiency ratio) of 3.75
