,noyau de ferrite ,Magnetic Core

Category: électronique

written by Jamila | 4 September 2018

PictureS Mbsm Dot Pro : [www.mbsm.pro](http://www.mbsm.pro)

Le noyau de ferrite est utilisé pour réduire les interférences électromagnétiques dans les câbles électriques ou de signaux produits par le courant électrique.

Un noyau de ferrite agit comme un filtre ou réactance inductive, pour fournir une résistance au passage de courants alternatifs de haute fréquence qui peuvent provoquer des interférences dans les périphériques et appareils électroniques.

Category: electronique,Tester ok  
written by mahdi miled | 4 September 2018

Picture5 Mbsm Dot Pro : [www.mbsm.pro](http://www.mbsm.pro)

Démarrage immédiat de la pompe à l'ouverture d'un robinet. Les contrôleurs de pression JETLY de la série PRESSCONTROL, permettent la suppression des dispositifs de commande et de protection manque d'eau de la pompe (électrodes, flotteurs, contacteurs manométrique). En effet, les PRESSCONTROL sont des systèmes hydrauliques et électroniques conçus pour automatiser et protéger contre le manque d'eau les pompes de surfaces et immergées. Ce système gère automatiquement le fonctionnement de la pompe et

l'appareil ne demande ni réglage, ni entretien d'aucune sorte.

www.mbsm.pro , free,For windows, Personal Renamer , Easy filerenaming, Portable Bulk File Renamer, Folder monitor, All in one,

Personal Renamer is being upgraded, and now has an official website Please visit [www.personalrenamer.com](http://www.personalrenamer.com)

Many have waited for this release, more specifically for the addition of the service monitor which has been added to the program in this release. Personal Renamer has always had the option to monitor a directory and rename files but with this latest addition users can have Personal Renamer monitor a directory invisibly the background, and more importantly while logged out. This is a very powerful and useful addition. Other new features include Undo and the option to apply saved settings when program starts up.
