How to read the codes of maneurop compressors This model of maneurop compressors (
MT&MTZ)
is designed to work on a wide range of medium and high applications,
especially the MT
model. It is specially designed to work on modern freons HFC
R407C- R134a -R404a-R507A
. It uses polyester oil PZ1 6 0. These compressors have the feature of
protecting against liquid returning to the compressor as they have a wide pocket
at the entrance to the intake line to evaporate the liquid before entering the
piston cylinder. More than 16 models with different capacities starting from
1.84 to 16.57 cubic inches and working to feed 220v as well as 380v
