The infographic features a blue background with a white wavy line on the right side. At the top, the title 'Refrigerator Compressors' is in white, and 'AC vs DC' is in orange. Below the title, there are two columns. The left column is titled 'AC COMPRESSOR' in white on a blue background. It lists four bullet points: 'Runs on Alternating Current', 'Less Energy Efficient', 'Noisy Operation', and 'Simple and Cost-effective'. The right column is titled 'DC COMPRESSOR' in white on a green background. It lists four bullet points: 'Runs on Direct Current', 'Highly Energy Efficient', 'Quiet Operation', and 'Advanced Speed Control'. At the bottom, there are two black compressor units. The one on the left is an AC compressor, and the one on the right is a DC compressor with a 'DIGITAL INVERTER' label. A large grey rectangular area covers the bottom half of the infographic.

AC COMPRESSOR	DC COMPRESSOR
• Runs on Alternating Current	• Runs on Direct Current
• Less Energy Efficient	• Highly Energy Efficient
• Noisy Operation	• Quiet Operation
• Simple and Cost-effective	• Advanced Speed Control
